

Love&Lust Make her J-Hawk sexy

by NIKKI G

I know what you're thinking: if all girls could look like this, the world would be a better place. Well, your world, maybe. Unfortunately, I don't have a magic wand and can't make your girl look like Jennifer Hawkins (if she already does, then lucky you). This saucy little white number styled by Our Jen will make your girl look lovely and, more importantly, she will be most appreciative of your efforts.

Sometimes, things can get a bit stuffy and boring in a relationship. It's easy to take someone for granted, but we all need a little attention. If you feel you need to spice things up in the boudoir – or anywhere at all – all it could take is a trip to the lingerie section of a decent department store. Something like these Orotan outfits could be the perfect gift for your lady-friend. Spoil her rotten and watch her strut her stuff in this sexy white blood-boiler. This seductive little number accommodates the body in all the right places while still leaving room for your imagination to run crazily through the tall grass with its tongue hanging out. She'll feel sexy and familiar even with her clothes on. And that's even better on the bottom. *—Tina*

THE FHM THREESOME

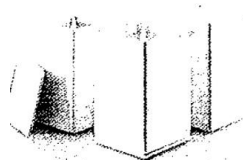

THREE GREAT GIFTS TO GET YOU OUT OF THE DOGHOUSE WHEN...

ONE

YOU FORGET TO CALL HER BACK

It's not the end of the world, but try giving her one of these unique scented massage oil candles by Jimmy Jane to smooth over her frustration. Once they burn, the wax melts into massage oil. What was once a pointless candle becomes slippery lubricant! Who knows, she might even choose to massage parts of you. Like your feet.

YOU'VE HAD A HUGE ARGUMENT

"I'm sorry" almost never works, probably because you've already said it thousands of times. Instead, why not promise her the moon? Or, the stars! Inscribe her name in the heavens forever with the International star registry. Sure, it's stupid, but she'll dig it. Unless she's made of dark matter.

What is it with...

→ Wipe-on pheromones probably sounded like a good idea on paper but give women a bit more credit, will you? We are attracted to all kinds of guys - rich guys, good-looking guys, funny guys, charming guys, well-dressed guys. What's missing from the list? Guys who smell faintly of cat's piss but who insist you'll have your knickers off in a heartbeat after you've taken a whiff of their neck. I understand why guys do it. Picking up women is a cut-throat business - a man needs all the competitive edge he can find. And if dousing himself in a potion he purchased for spare change in the gents is what a

man needs to feel confident, who am I to judge? But guys, here's an idea: save up all those \$2 coins and head to a department store. You want an irresistible chemical concoction that'll leave the ladies swooning in your wake? Try Versace, Armani or Hugo Boss. Actually... Versace wipes? Now there's a good idea.
